- Note**
 - Instructions about "Installing the TV to the Wall" are included within the TV's instruction manual.
 - Read the supplied safety documentation for additional safety information.

Location of the identification label
Labels for the TV Model No. and Power Supply rating are located on the rear of the TV. They can be found by removing the terminal cover.

- Installing the TV to the Wall**
- Using the optional Wall-Mount Bracket (SU-WL850 or SU-WL450)** (not supplied)**

To Customers:
For product protection and safety reasons, Sony strongly recommends that installation of your TV be performed by Sony dealers or licensed contractors. Do not attempt to install it yourself.

To Sony Dealers and Contractors:
Provide full attention to safety during the installation, periodic maintenance and examination of this product.

Wall-Mount Bracket Installation Information
For instructions on Wall-Mount Bracket installation, see the installation information (Wall-Mount Bracket) on the product page for your TV model.
https://www.sony-asia.com/support
* Follow the instruction guide provided with the Wall-Mount Bracket for your model. Sufficient expertise is required in installing the TV, especially to determine the strength of the wall for withstanding the TV's weight.
* Sony is not liable for any damage or injury caused by mishandling or improper installation.
* Only qualified service personnel should carry out wall-mount installations.
* For safety reasons, it is strongly recommended that you use Sony accessories, including:
— Wall-Mount Bracket SU-WL850
— Wall-Mount Bracket SU-WL450

• Be sure to use the screws supplied with the Wall-Mount Bracket when attaching the Wall-Mount Bracket to the TV set. The supplied screws are designed as indicated by illustration when measured from the attaching surface of the Wall-Mount Bracket.
The diameter and length of the screws differ depending on the Wall-Mount Bracket model.
Use of screws other than those supplied may result in internal damage to the TV set or cause it to fall, etc.
• Be sure to store the unused screws and Table-Top Stand in a safe place until you are ready to attach the Table-Top Stand. Keep the screws away from small children.

- Only for limited region/country/model.

Troubleshooting
General troubleshooting for issues like: black screen, no sound, frozen picture, TV does not respond, or network is lost, do the following steps.
1 Restart your TV by pressing the power button on the remote control for about five seconds. The TV will restart. If the TV does not recover, try unplugging the AC power cord (mains lead) then press the power button on the TV and release it. Wait for two minutes, and plug in the AC power cord (mains lead).
Or, press the power button on the TV for about 40 seconds until the TV turns off.
2 Refer to the Help menu shown for about 30 seconds.
3 Connect your TV to the Internet and perform a software update. Sony recommends you to keep your TV's software updated. Software updates provide new features and performance improvements.
4 Visit Sony support website (information provided at the end of this supplied safety documentation).

When you plug in the TV, the TV may not be able to turn on for a while even if you press the power button on the remote control of the TV.
It takes time to initialize the system. Wait for about one minute, then operate it again.

The remote control does not function.
• Replace the batteries.
The parental lock password has been forgotten.
• Enter 9999 for the PIN and enter the new PIN.
The screen becomes darker while watching TV.
• If the whole image or part of the image remains still, the screen brightness will be gradually reduced to prevent image retention. This is not a malfunction of the TV.

LA

Power is concerned about image retention.
If the same image is displayed repeatedly or for long periods of time, image retention may occur. To reduce image retention, we recommend that you turn off the TV normally by pressing the power button on the remote control or the TV.

Note

- Perform Panel refresh only when image retention is particularly noticeable. Avoid performing Panel refresh more than once a year because it may affect the usable life of the TV.
- Images that include logos and bright colors (including white) easily cause image retention. Avoid displaying these types of images for long periods of time, otherwise image retention may occur.

A white line appears on the screen.

XR-83A0L only)
If the Panel Refresh has been performed, a white line may be displayed on the screen during the Panel refresh. This is not a malfunction of the TV. Panel refresh starts after the TV is turned off and takes about one hour to complete.

The message [Panel refresh did not finish...] is displayed.

When i) the TV is turned on, ii) the AC power cord (mains lead) is unplugged, or iii) the room temperature falls outside of the range between 10 and 40 °C during the Panel refresh, the Panel refresh is not completed. Please avoid the above three conditions during the Panel refresh. (XR-83A0L only)

When ii) the TV is turned on or ii) the AC power cord (mains lead) is unplugged during the Panel refresh, the Panel refresh is not completed. Please avoid the above two conditions during the Panel refresh. (Except XR-83A0L)

For more information, refer to the Help Guide.
Press (Input select) on the remote control and select [Help]. If [Help] does not exist, select [Edit] and add [Help].
